

C-Store Induction Training

Risk Management Modules Only

Employers need to ensure that their staff have received quality training in practicing safe work practices and complying with all relevant laws.

This self-paced work program, supported by the employer or supervisor in the workplace, offers C-Store retailers the opportunity to provide consistent standards of training to their staff and is aligned to industry best practices and bench marks.

This program will cover all these areas:

Module 1 Workplace Safety & Your Legal Compliance

- Fuel Safety & Fire
- Personal Injury & Armed Robbery
- Tobacco Retailing & TPA and more....

Module 2 Food Safety

When your staff member has completed the assessment workbook their supervisor/Store Manager should verify all of the activity responses and conduct the contained observations of correct work practices.

When all evidence has been verified the assessment workbook should be retained in your staff files as a record of the training.

The program is aimed at all frontline retail staff in C-Stores and Service Stations.

atmp also offer an Assessment Verification Service by qualified assessors with industry experience relevant to C-Store and Service Station operations, please contact us if you require details of this service.

Program materials fees:

C-Store Induction (Risk Management) Workbook
\$13.75 each GST incl

Reference Material—\$39.50 GST incl
