

Store Security & Armed Robbery Survival

Retail businesses today remain at risk of suffering an armed robbery attempt. Under OH&S laws the employer has a Duty of Care to prevent potential harm to their employees.

Under their risk management obligations employers need to provide adequate training and information on armed robbery survival procedures. This short facilitated workshop has been developed by atmp specifically for C-Stores and Service Stations who have long been the target of armed robberies as well as subject to customer theft from shop stealing.

This workshop will cover all these areas:

- Identifying the key security and criminal risk activities
- Identifying methods of prevention and reducing the incidence of armed robbery
- Identifying and practicing the behaviours for staff during an armed robbery event
- Identifying the post robbery procedures
- Identifying shop stealing behaviours and procedures for prevention

Workshop participants will be assessed against the performance criteria of 1 unit of Certificate II in Retail and awarded a Statement of Attainment for the following —

SIRXRSK001A Minimise Theft

The workshop is aimed at all frontline operators in Retail Operations, Convenience Stores and Service Stations,

Workshop duration—3 hours
